Choose the right **Hydrolab Water Purifier** for your lab

Is your feed water prefiltered or straight from the tap?

I'm using pre-filtered water

Tap water

What level of purification do you need to produce?

1 (Ultrapure)

2 (Deionised)

3 (Filtered)

What level of reporting / control do you need?

What level of reporting / control do you need?

What level of reporting / control do you need?
